ORGANIC Ingredients: List ingredients used in this entry in the table below, including all fermentables (malts & adjuncts), hops, or other flavorings. Generic ingredient names are allowed (for instance Briess organic malt, organic hops from New Zealand), but the source must be included. Organic certificates must be on file for all ingredients used that originate from commercial crops. If your brewery is certified organic, a copy of your organic certificate plus organic certificates for the hops must be available for review. These non-organic ingredients & additives are allowed: Burton salts, calcium carbonate, calcium chloride, citric acid, gypsum, Irish moss, lactic acid, magnesium sulfate, potassium chloride, and yeast. Wildcrafted herbs or spices other ingredients (except hops!) may be considered by the NOBC panel. Please submit a request for consideration before completing an entry if an exemption is desired.

Ingredient type/brand	Organic source (where purchased or grown)	Organic Certificate issued by (agency name):

Additional brewing notes & procedures- Please use the back of this form if additional room is needed:

All information about the beers from craft brew entries are for ingredient verification purpose only and will be held in strictest confidence!

Entries judged according to the BJCP Style guidelines which are published here: <http://www.bjcp.org/stylecenter.html> Entries and empty bottles will not be returned. See contest rules for details.
